STAFF BOOK

Hey there, Akane! Let's hang out!
Huh, what are you doing all by yourself?

Aoba

Akane

Just playing a game. It's Dezatopia,
the omnidirectional shmup released on
PC and the Nintendo Switch in 2019.

Was there a need to go into that
much detail? Are you feeling OK?

I was just answering your question!
Here, do you want to try?

Sure!
I'm not very good at shooting games,
though.

Don't worry,
there's a tutorial that covers the basics.

But since we're in book form,
I might as well show you the ropes myself.

(Something's definitely weird about
him today.)
Great, thanks a lot!

Basic Controls

Maneuver your ship along path.

Hitting walls won't hurt.

but getting trapped will.

The four directional guns can
be fired or stored at will.

Each one has its own
charge gauge.

Charge Gauge

What's interesting about this game is that you can
shoot with up to four weapons at the same time.

Each is controlled separately,
and turning one off for a while will let it
fire a powerful charged shot!

Also, the more weapons you have out,
the slower you'll move, so keep that in mind.

Red panel:

Upgrades the Fore Gun

Blue panel:

Upgrades the Lower Gun

Green panel:

Upgrades the Aft Gun

Orange panel:

Upgrades the Upper Gun

*Sold Out will display if no upgrades are

Purple panel (Life +1):

Restores 1 HP

Purple panel (Life Max):

Restores all HP

Purple panel (Max Up):

Raises max HP by 1

Yellow panel (Bomb):

Adds 1 Bomb

Yellow panel (B. Level):

Raises Bomb level by 1

Besides power-ups, you can buy more life and bombs. Even when it looks like you're about to game over, try to hang on until you can open the Shop.

As long as I buy life refills, I'm good no matter how much I get hit!

Except you really should be using bombs! Manage all your resources so you can upgrade your ship, too.

STAGE1 CITY

The girl gained absolute rule.
